DETAIL CENTER

Figure 1 illustrates the evolution of a pavement strip over time, showing the progression from a single strip to a complex structure with multiple layers and segments. The diagram consists of seven horizontal timelines, labeled 1 through 7, representing different stages of the process.

- Timeline 1:** Shows a single strip labeled "1".
- Timeline 2:** Shows a strip labeled "1" and a strip labeled "2".
- Timeline 3:** Shows a strip labeled "1" and a strip labeled "2".
- Timeline 4:** Shows a strip labeled "1" and a strip labeled "2".
- Timeline 5:** Shows a strip labeled "1" and a strip labeled "2".
- Timeline 6:** Shows a strip labeled "1" and a strip labeled "2".
- Timeline 7:** Shows a strip labeled "1" and a strip labeled "2".

The strips are labeled with "1" and "2" and "A" and "B", indicating different segments or layers of the pavement structure. The diagram shows how these segments are added and modified over time, leading to the final complex structure in Timeline 7.
